

REPORT

NAME OF THE INITIATIVE: - Research and Development

ABOUT R&D:

Research is the backbone of academics. It simplifies concept building and transforms new ideas into innovations in pursuance of a new era of passion for researches. Each finding gives immense pleasure and multiplies enthusiasm towards achieving the target. A research and development job **allows graduate engineers to use their skills to push the frontiers of science forward**. The aim of research and development (R&D) is to improve the current technologies offered by an organization or to develop innovations that strengthen the organization's position in the marketplace.

The Research and Development Cell aims to nurture research culture in the College by promoting research in newly emerging and challenging areas of Engineering, Technology, Science, and Humanities. It encourages the students and faculty to undertake the research in newly emerging frontier areas of Engineering, Technology, Science, and Humanities including multidisciplinary fields. This enhances the general research capability of budding technocrats by way of participating in conferences, seminars, workshops, project competitions, etc.

OBJECTIVE AND OUTCOMES:

The Research and Development Cell is functioning with the following objectives:

- To create awareness and opportunities in Research and Development among the students & faculty and to create Research and Development atmosphere in every department;
- To create interest and atmosphere among the staff members to take up Research projects and improve their knowledge, skills and qualifications by registering Ph. D's;
- To motivate the faculty members of the group for R&D activities in the area of their specialization;
- To encourage staff members and students to publish technical papers for publishing in National and International Conferences/Journals;
- To encourage faculty members of all the disciplines in Engineering/Science /Humanities in R&D activities for their professional growth;
- To create awareness about filing Patents & IPR
- To undertake research activities and development projects offered by agencies such as ISRO, DRDO, CSIR, DST, AICTE, UGC, etc.
- To assist the students to apply funding for conducting research under the student project scheme to various funding agencies.

- To assist for applying and getting funds for conducting Seminar/Workshop/FDP from various available funding agencies;
- To facilitate the growth of research activity among the academic community, including developing mechanisms and targets to achieve this;
- To develop and coordinate strategies for maximizing the faculty's success in gaining external research funding;
- To develop strategies to foster research collaborations within the faculty, across faculty and institutes, and with agencies outside the college;
- To work with various departments to establish and develop faculty research priorities on interdisciplinary areas;
- To interact with industry, government, professions and the wider community on all research matters promote faculty research activities to external stakeholders;
- To coordinate faculty level workshops and staff development activities on research-related issues;
- To maintain effective links with government departments, authorities, business, and commerce and industry organizations relevant to the college research activities.

In order to promote research and development activities, the college extends its full support to students/faculty/staff. Full/Partial financial support is given to all innovative research & development works taken up by the students, faculty and staff members. The college encourages students, faculty, and staff to participate in National/International Conferences, Training Programs, and Tech-Festivals organized by reputed institutes (IITs/NITs/State Engineering Colleges etc.) by giving full/partial financial support.

STRATEGIES:

The Institute develops strategies in the following strategic focus areas

- ❖ Motivate the faculty members and students to publish papers in Journals and Conferences
- ❖ Motivate the faculty to file patents
- ❖ Motivate the faculty members to do consultancy work
- ❖ Organise conferences/seminars/workshops
- ❖ Procure research funding by applying projects to funding agencies
- ❖ Procure funding for conferences

MEMBERS AND MENTORS: -

The institution has a research and development committee. R & D cell facilities to facilitate and monitor research activities. The faculty as well as students is actively engaged in reactivity & other research projects.

ENTREPRENEURSHIP CELL

AJAY BINAY INSTITUTE OF TECHNOLOGY

About:

Economic development of a country is supported by entrepreneurship in several ways. It is a key contributor to innovativeness and product improvement and a pivotal ingredient to employment creation. Another important aspect to be considered is that in the context of the Indian market, entrepreneurship led economic growth is more inclusive and hence Governments, both at Centre and State level, have been taking initiatives to boost the entrepreneurial ecosystem.

ABIT has established a full fledged Entrepreneurship Development Cell which addresses all the needs of students to become dynamic entrepreneurs.

The ED Cell of ABIT conducts various awareness programmes such as Seminars, Workshops, Industrial Visits, Food Fest and Interaction with young Entrepreneurs etc. These programmes are aimed at making the student community more enthusiastic towards entrepreneurial activity. The Advisory board for the ED cell comprises members from industry, financial institutions, Research and Development, Government institutions etc. The board will guide and advise the cell in organizing various activities.

Vision:

To produce successful entrepreneurs imbued with innovative skills and ethical business practices contributing to the development of the society and growth of the nation.

Mission:

To promote the culture and spirit of entrepreneurship among students and motivate them to become entrepreneurs.

Objectives:

- To create awareness on Entrepreneurship among the students through training programmes and camps.
- To enhance industry institute interaction through guest lectures and industrial visits.
- To help students acquire necessary managerial skills to run an enterprise effectively.
- To generate entrepreneurship skills among the students to cope up with the current trends in the market.
- To help students channelize their goals to become a versatile entrepreneur.

SOCIAL ACTIVITIES AND COMMUNITY CONNECT CELL, ABIT, CUTTACK

OBJECTIVES AND OUTCOMES:

Our academic institute being a part of the larger society it is important that we stay connected with the society and contribute towards resolving some of the challenges being faced by the society and in the process enrich our teaching learning experience while creating goodwill and brand image of our institute. The specific objectives of SACC cell are as follows:

- To disseminate information, create awareness, and get connected to the youth and society at large.
- To create a positive and brand equity for the Institute in the society.
- To provide an exposure to our students about various challenges being faced by the society and develop a holistic approach toward learning
- To help our students improve their emotional quotient, organizing capabilities, teamwork, leadership qualities etc.

STRATEGIES:

A multipronged approach is required to achieve the desired objectives of the SACC cell as provided below:

- Conduct competition viz. science project, model building, paper writing, quizzing, etc. amongst the local schools/colleges based on various socially relevant themes viz. energy conservation, water conservation, climate change, tree plantation, ethical hacking, etc.
- Participation of students in different events viz. exhibitions, trade fairs, etc. through stalls, placards etc. promoting a social cause

- Performance of street plays by the students in the nearby areas viz. school & college campuses, residential societies, office complexes etc. based on social themes viz. gender equality, Tobacco free society, higher education, computer literacy, social networking etc.
- Weekend/Holiday visits by the student groups to nearby blind or mentally challenged schools etc. and spend time with the students etc.
- Create awareness amongst on various topics viz. traffic rules, covid & other health related issues, cyclones etc. and support Govt. in disseminating the information to the general public

The above activities will be conducted on a periodic basis with the participation of the students. The students will both perform and organize the event under the overall guidance of the faculty members. Faculty members will endeavor to create enthusiasm amongst the students to participate in such events

AWARENESS PROGRAMME ON PLANTATION

ABIT College's SOCIAL SERVICE CLUB has conducted one Awareness program about PLANTATION. The 12 members participated have distributed saplings of big tree(like SAGUPAAN, CHAMPA, BOULA, KRISHNACHURA, MALI etc.) to the public making them aware of the importance of plantations. IDEA: One person can plant more than 20 tree saplings at a time, but taking care of those is not possible. Whereas taking care of a single plant is not only easier but also pleasurable. Hence we have distributed one plant to one person. Our slogan was: **ADOPT A PLANT. EACH ONE PLANT ONE.**

AWARENESS PROGRAMME ON INTERNATIONAL DAY AGAINST DRUG ABUSE AND ILLICIT TRAFFICKING

SOCIAL ACTIVITIES AND COMMUNITY CONNECT CELL of ABIT has observed the International Day against Drug Abuse and Illicit Trafficking on 26-06-2021. The objective of this program was to create awareness on responsibilities of parents to prevent their ward from addiction of any harmful substances. One compiled video of students was made and circulated in social media on the same day. Posters made by students were posted in social media and made viral on the day. A virtual meeting was also arranged at 6:30 pm on Google meet platform. Parents were invited to join as participants along with faculty team members and student team members. There was a systematic discussion among faculty members and parents about how to make the youth stay away from drugs. Introduction, causes, effects, solutions, preventions and control were the points of discussions. The parents felt satisfied on the thoughtful initiative of ABIT towards sensitive matters like Drug Abuse and also expressed to continue this kind of event in future, in the Google meet.

GATE PREPARATION AT ABIT

GATE is the Graduate Aptitude Test in Engineering is a prestigious exam for technocrats in India which provides options for both jobs as well as higher education in various PSUs.

Ajay Binay Institute of Technology conducts GATE preparatory classes for 3rd and 4th-year students in hybrid mode. The objective of the classes is to crack various competitive examinations like GATE, PSUs, IES, ISRO, DRDO, BARC, etc., and also to pursue a career in higher studies at IISc/ IITs/ NITs/ Fellowship at IIM/ NITIE, Mumbai.

Highlights of the Program

- Hybrid (offline & online) mode with the majority of classes conducted in offline mode
- Conducted by highly experienced GATE tutors (external/ internal resource persons)
- Online class recordings to be shared after every class
- Offered for EE/MECH/CIVIL/ETC/EEE/CSE
- Subject-wise practice and mock tests, review sessions, and assignments for self-evaluation
- Last 10 years GATE questions and answer discussion
- Provision for doubt clearing sessions
- Online Test Series to provide a real-time exam experience to the aspirants.
- Coverage of the entire syllabus as per the revised syllabus-based lesson plan.

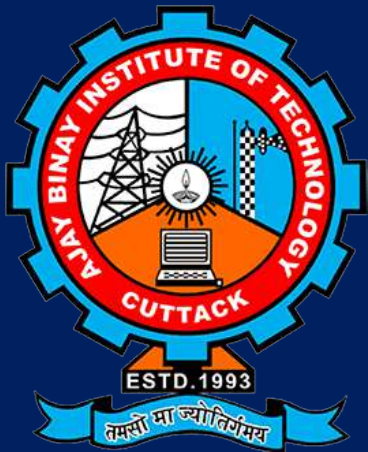

Success Stories

- Subhasish Mishra of EEE (2017-21) batch qualified GATE Exam in 2021.
- Amit Behera (EE) and Kritika Samal (CSE) have qualified GATE Exam in 2022
